HOT AIR PAGE

We are pleased to offer this general numismatic sale following close on the heels of our Collectibles Auction in Boston. It is worth your while to examine closely this catalog because it contains a diverse range of material, the majority of which is very desirable.

The new Lansing Sheraton Inn, where this auction is being held, is a new auction site for us. We are quite impressed with their facilities. It is on the Southwest side of Lansing off the cross town expressway (I - 496 at Creyts Road). We are still formulating plans with the Sheraton Inn for our usual noon buffet. However, there is an excellent reasonably priced restaurant in the hotel.

This Hot Air Page is being written prior to our attending the Collectibles Show in Boston. At the moment, we are quite pleased with the mail bid response to the pocket watch section of our August sale. We are finding we have a diverse clientele from many countries interested in pocket watches. Two other collections of pocket watches have been consigned to us for our upcoming November auction. This will provide an interesting sidelight to the main MSNS catalog. Additionally, the mail bid response to the literature section of the August catalog is gratifying.

An unusual offering in this current sale is the collection of brockages which appear in the first session. These coins have been photographed so that all detail clearly shows. Unfortunately, from the illustrations, one can not tell that the detail is actually incused into the metal surface. We apologize for the optical illusion. While these could have been photographed giving the impression of an incused image, the fine detail in the illustrations would be missing.

Our future sales include the International Numismatic Society (INS) in Arlington, Virginia in October followed by the Michigan State Numismatic Society Auction (MSNS) this November in Dearborn, Michigan. Schedule, dates and type of material included in these sales are mentioned on the inside front cover of this catalog. Our 1983 auction schedule is now being formulated. We can always use good quality, problem-free material on consignment, particularly if it does not need to be bulk lotted. Material can always be shipped to us by registered mail. An acknowledgement of the shipment is made the day the consignment package arrives. Additionally, consignment material can be hand carried to our office in East Lansing or left with George Beach at one of the 40 major conventions he regularly attends. Mr. Beach is authorized to receive consignments for me. Our insurance covers the full retail value of consignments delivered to Mr. Beach from the time of his receipt of the material.

Some of our plans for the year have been delayed. We have not, as yet, implemented the computerization of our mailing list and want list service. These plans are in flux partly due to the difficulty in deciding between four or five major systems and also due to the possibility of relocating our office.

In closing, we would like to thank you, our bidders, for your continued excellent participation in our auctions. We do want to remind a small minority of bidders that auction accounts are to be settled promptly. If you are acting as an agent for someone else, you may need to re-evaluate the credit references and prompt payment record of your clients.
